

Multiple Faces of Chemistry: From Marie Curie to Nowadays

January 31st 2011 –February 1st 2011

Jour 1

Institut Curie, 12 Rue Lhomond, 75005 Paris (amphithéâtre Burg)

8:30 – 9:00 Enregistrement

9:00 – 9:20 Session d'ouverture

9:20 – 10:00 Dr. Cynthia A. Maryanoff (Johnson&Johnson, USA)
"Active Pharmaceutical Ingredients in Convergent Technologies:
How Are They Chosen?"

10:00 – 10:30 Pr. Véronique Gouverneur (Oxford University, UK)
"Recent Advances in ¹⁸F-Radiochemistry for Positron Emission
Tomography"

10:30 – 10:50 Dr. Stefan Hillebrand (Bayer CropScience, Germany)
"Syntheses of Fungicidal Natural Products – A Crop Protection
Perspective"

10:50 – 11:30 Pause café

11:30 – 11:50 Dr. Justyna Walkowiak (Adam Mickiewicz University, Poland)
"Fluoro enamines as versatile reagents for fluorine transfer and
introduction of CF₃-containing building blocks"

11:50 – 12:10 Dr. G. Masson (CNRS, France)
"Enantioselective Aza-Morita-Baylis-Hillman Reaction: Key Role of
Achiral Additive"

12:10 – 12:40 Pr. Maria Chrzanowska (Adam Mickiewicz University, Poland)
"Asymmetric addition of carbon nucleophiles to imines as a method
for the synthesis of heterocyclic amines, including isoquinoline
alcaloids"

12:40 – 14:10 Déjeuner

- 14:10 – 14:40 Pr Yannick Landais (Université Bordeaux 1, France)**
"Free-radical functionalization of olefins"
- 14:40 – 15:00 Dr. Anna Kajetanowicz (Polish Academy of Sciences, Poland)**
"Synthesis of substituted tetrahydrofurans via reactions of γ -halocarbanions"
- 15:00 – 15:30 Pr. Zbigniew Czarnocki (University of Warsaw, Poland)**
"Stereoselective synthesis of selected heterocyclic compounds of pharmaceutical importance"
- 15:30 – 16:10 Pause café**
- 16:10 – 16:30 Dr. Philippe Gloanec (Servier, France)**
"Synthesis and Pharmacological Evaluation of New Tetrahydro-pyrrolo-pyrazinone containing Orally Bioavailable Thrombin Inhibitors"
- 16:30 – 17:00 Pr. Carmen Najera (University of Alicante, Spain)**
"Silver versus Gold complexes as catalysts in organic synthesis"
- 17:00 – 17:30 Dr. J. L. Parrain (Université Paul Cézanne, France)**
"New synthetic routes towards natural spirolactones"
- 17:30 – 18:10 Dr. Agnes Bombrum (Merck-Serono, Switzerland)**
"An adventure of medicinal chemists: finding novel pyridopyrimidines to treat Rheumatoid Arthritis"
- 18:30 – 20:00 Keynote lectures : "Cancers du sein de la prise en charge diagnostique au traitement multidisciplinaire"**
Les conférences de vulgarisation grand public auront lieu à l'ESPCI ParisTech, 10 Rue Vauquelin, 75231 Paris Cedex 05 (amphithéâtre Langevin)
- Dr. Anne Vincent-Salomon (Institut Curie, France)**
- Dr. Paul Cottu (Institut Curie, France)**
- Dr. Florence Thiebaut (Institut Curie, France)**
- Dr. Séverine Alran (Institut Curie, France)**

Jour 2

ESPCI ParisTech, 10 Rue Vauquelin, 75231 Paris Cedex 05 (amphithéâtre Langevin)

8:30 – 9:00 Montage des posters

9:00 – 9:10 Ouverture de session

9:10 – 9:50 Pr. Max Malacria (Université Pierre et Marie Curie, France)
"Platinum and Gold Catalyzed Cycloisomerization of Enynes, Allenynes and Allenediennes"

9:50 – 10:20 Pr. Dorota Gryko (Polish Academy of Sciences, Poland)
"Conjugation of protoporphyrin IX with vitamin B12 – Novel approach towards NOfree activators of sGC enzyme"

10:20 – 10:40 Dr. F. Gagosz (CNRS, France)
"Development of Gold(I)-catalyzed Reactions for Organic Synthesis"

10:40 – 11:30 Pause café / Session poster

11:30 – 11:50 Dr. R. Rodriguez (Cambridge University, UK)
"Small Molecule for Big Medicine"

11:50 – 12:20 Dr. Virginie Vidal (ENSCP, France)
"Asymmetric transition-metal catalyzed reactions: from laboratory scale to scale up development"

12:20 – 13:00 Pr. Jacek Skarzewski (Wroclaw University of Technology, Poland)
"Cinchona alkaloids : new organocatalysts and ligands"

13:00 – 14:30 Déjeuner

14:30 – 15:00 Pr. Marek Potrzebowski (Polish Academy of Sciences, Poland)
"New applications of solid state NMR spectroscopy in structural studies of organic and bioorganic compounds"

15:00 – 15:20 Dr. C. Dumas (Isotopen, Switzerland)
"Manufacturing of Radiopharmaceuticals, a time challenge"

15:20 – 15:40 Dr. N. Blanchard (Université de Mulhouse, France)
"Total synthesis of mycolactones A/B, toxins of the Buruli ulcer - Insights into the structure/activity relationships"

15:40 – 16:10 Pause café / Session poster

16:10 – 16:40 Dr. Agnieszka Wojtkiewicz (University of Białystok, Poland)
"Cross-metathesis reactions of natural polyenes"

16:40 – 17:00 Dr. H. Boiteux (Waters, France)
"Benefits of SFC for Organic Synthesis"

17:00 – 17:40 Pr. Jadwiga Frelek (Polish Academy of Sciences, Poland)
"Utilization of the CD spectroscopy for structure elucidation of optically active compounds"

17:40 – 18:00 Mots de clôture / Prix des meilleurs posters
